

INSTRUCTIONLibrary Media Resource CentersA. Generally

Each school shall have a library media resource center which adequately meets the needs of the teachers and students.

The resource center shall provide access to all educational materials in the school, with the exception of those such as textbooks that are used for classroom instructional purposes. Instructional personnel and library media staff have the responsibility for cooperatively selecting instructional media and equipment.

B. Extended Hours-High Schools

Subject to annual approval by the school board the high school library media resource centers may be opened and staffed during a limited number of evening hours.

Adopted by School Board: March 24, 1987
